25X1 1. [redacted] Comment. Possibly troop shipments.

25X1 2. [redacted] Comment. Construction material deliveries for the Oranienburg and Schorfheide airfields.

25X1 3. [redacted] Comment. Comparable data for March 1953 were available for 29 of the reported 35 railroad stations. The remaining 6 railroad stations are of minor importance for a comparison with the previous month as a total of only 41 cars was loaded there. After deduction of the shipments which possibly carried troops, military supply shipments loaded in the Cottbus railroad district totaled 2,676 cars as against 2,550 cars reported for March. The total of cars loaded from which 1,054 cars with material for the construction of airfields have to be deducted indicates normal supply traffic.

25X1 4. [redacted] Comment.
